SUMMARY

Aspiring Software Engineer with a strong foundation in computer science and mathematics. Experienced in programming with languages such as Java, Python, JavaScript, and C++, and skilled in managing IT operations and providing technical support. Successfully led a team in a university setting, demonstrating leadership and problem-solving abilities. Eager to apply technical skills and leadership experience to contribute to innovative software development projects.

EDUCATION

University of New Mexico

Aug 2021 - May 2025

Bachelor of Science, Computer Science, Mathematics

Albuquerque, NM

- Achievements: Cumulative GPA: 3.50/4.00
- Coursework: Data Structures & Algorithms, Software Engineering, Database Management (SQL, NoSQL), Operating Systems, Design of Large Programs, Java, C, Python, Assembly, Haskell, VHDL

PROJECTS

Expense Manager

- Created a web-based application to manage expenses allowing users to add expenses in group of people and share the cost between the group.
- Functionality of receipt scanning to autofill item list, cost, and people to share with.

Bomb Lab

- Defused a 'bomb' by implementing and optimizing code in C and Assembly language.
- Explored computer architecture principles and gained insights into system-level optimization techniques.

Auction House

- Led a team of 3 to develop auction management system, allowing clients to participate in auctions through a server-based platform.
- Handled creation, listing, bidding, and closure process ensuring smooth operations from both sides.

WORK EXPERIENCE

Personal Projects

Aug 2021 - Present

Software Engineer

Albuquerque, NM

- Developed a personal expense management application using JavaScript, Angular, and NodeJS, incorporating key features like data visualization, user authentication, and cloud storage.
- Designed and implemented database schemas using SQL to manage and optimize data storage for the expense manager.
- Created intuitive front-end interfaces using HTML, CSS, and JavaScript to enhance user experience and ease of use for the application.
- Followed agile development principles to iteratively improve the expense manager, incorporating feedback for better usability and performance.
- Implemented security measures, such as data encryption for user financial data, to ensure privacy and compliance with best practices.

Information Technology Classroom Academics (UNM)

Feb 2022 - Present

Annex Supervisor

Albuquerque, NM

- Supervised day-to-day IT operations, provided technical support for classroom technologies, and maintained positive stakeholder relationships, resulting in improved operational efficiency
- Managed the SCONS team by providing task support, ensuring policy adherence, and fostering a positive work environment, which led to increased team productivity
- Led the team effectively, increased productivity, and adapted to additional responsibilities, enhancing team performance and morale
- Addressed inquiries and complaints promptly and professionally, improving customer satisfaction and strengthening client relationships

SKILLS

- **Database & Programming Languages:** Java, JavaScript, Python, R, Scheme, Haskell, MATLAB, SQL, MongoDB, NoSQL, C, C++, C#
- **Software Tools:** IntelliJ, C Lion, VSC, Excel, Google Sheets, Cherwell Ticketing System, Windows, MacOS, Linux, Unix, Photoshop, Audacity, OBS, Premiere Pro
- **Communication & Interpersonal:** Strong Problem-solver, Teamwork, Effective Communicator, Time management, Critical-thinker, Decision-maker

CERTIFICATIONS

- **International Amigo Scholarship:** Awarded the International Amigo Scholarship for maintaining a GPA of 3.0+, providing in-state tuition benefits.
- **Dean's List, School of Engineering:** Consistently recognized on the Dean's List for maintaining a GPA of 3.5+ across multiple semesters (Fall 2021, Fall 2022, Spring 2024).
- **SoE - Student Success Scholarship:** Awarded the \$1,000 Student Success Scholarship for outstanding academic performance and maintaining a high GPA in the School of Engineering.
