PROFESSIONAL SUMMARY

Junior Application Developer building and maintaining enterprise web applications using C#, .NET, ASP.NET Core MVC, Blazor, and SQL. Experience supporting 500+ internal users through secure, role-based systems and modernized legacy applications. Focused on scalable architecture, performance, and production-ready software.

TECHNICAL SKILLS

Languages & Frontend: C#, Java, JavaScript, SQL, Python, HTML, CSS, Bootstrap, FontAwesome

Frameworks & Libraries: .NET, ASP.NET MVC, Blazor, Spring Boot, React, jQuery

Databases & Tools: SQL Server, PostgreSQL, MongoDB, Visual Studio, SSMS, VSC, Git, Azure, IntelliJ, Linux/Windows

WORK EXPERIENCE

ARCA (Opening Doors), Albuquerque, NM

Jul 2025 - Present

Junior Application Developer

- Developed and maintained in-house web applications and internal websites supporting daily operations for 500+ staff members.
- Built and enhanced application features using ASP.NET Core MVC, Razor Views, and Entity Framework Core following MVC best practices.
- Implemented CRUD operations, form validation, and role-based access controls for internal applications.
- Managed user roles and access permissions using Azure Active Directory to support secure application usage.
- Maintained and modernized legacy applications and databases to ensure system stability and data integrity.
- Used Azure DevOps for version control, managing repositories, tracking work items, and collaborating on code changes.
- Assisted with deployment, configuration, and maintenance of applications in Windows Server and Azure-hosted environments.
- Gathered requirements directly from department stakeholders and translated them into production features.

University of New Mexico, UNM, Albuquerque, NM

Feb 2022 – May 2025

Annex Supervisor, UNM IT

- Provided technical support and troubleshooting for faculty, staff, and students in a university IT environment.
- Resolved hardware, network, and classroom technology issues in a timely manner.
- Maintained SharePoint sites, MS Teams schedules, and managed Windows Server environments.
- Managed a team of student consultants, ensuring policy adherence and fostering a positive work environment.
- Addressed inquiries and complaints professionally, enhancing customer satisfaction.

PROJECTS

Expensage ([Live Demo](#))

Feb 2025 – Jul 2025

- Developed a full-featured expense management app to track, split, and simplify shared expenses among friends and groups.
- Implemented secure JWT authentication, group/friend management, and advanced split types (equal, exact, percentage, shares).
- Integrated OCR using Google Cloud Vision API and AI parsing via Gemini (Vertex AI) for receipt scanning and auto-suggestion of expense details.
- Designed and implemented a full-stack architecture using Spring Boot (Java 17), React, TypeScript, PostgreSQL (Supabase), and deployed backend on Oracle Cloud with Cloudflare R2 for storage.

My Apps - Cloud Based Authentication System ([Live Demo](#))

Nov 2024 – Jul 2025

- Built a centralized dashboard to manage multiple applications with shared authentication.
- Integrated Mailgun API for email verification and domain configuration.
- Migrated infrastructure from Heroku to Railway and refactored MongoDB-based routes to PostgreSQL.

Groceries List Manager - Full-Stack App ([Live Demo](#))

Jun 2024 – Jul 2025

- Built a live groceries list application with user authentication and live data updates.
- Implemented real-time data synchronization and secure authentication using RESTful APIs.

- Deployed using Railway and configured CI for future scalability.

Auction House - Scalable Web Platform

Feb 2024 – Apr 2024

- Led a 3-member team to develop a terminal-based auction system with server-client architecture.
- Built core features including item listing, bidding, and transaction closure.
- Developed a user-friendly UI using HTML, CSS, and JavaScript.

EDUCATION

University of New Mexico, Albuquerque, NM

Aug 2021 – May 2025

Bachelor of Science in Computer Science and Minor in Mathematics

Graduated Cum Laude

Coursework: Data Structures & Algorithms, Software Engineering, Database Management (SQL, NoSQL), Operating Systems, Design of Large Programs, Java, C, Python, Assembly, Haskell, VHDL, Computer Networks
