OBJECTIVE

Current university student with a major in computer science and minor in mathematics. Seeking to leverage my 3+ years programming skills as a **Software Engineer**. As of **09.2024**, I am available for a 40-hour workweek, and able to work with a flexible schedule.

EDUCATION

University of New Mexico | Bachelor of Science

Albuquerque, NM | **08.2021 – 05.2025**

- Major in Computer Science & Minor in Mathematics
- Coursework: Data Structures & Algorithms, Software Engineering, Database Management (SQL, NoSQL), Operating Systems, Design of Large Programs, Java, C, Python, Assembly, Haskell, VHDL.
- Cumulative **GPA**: 3.46/4.00

PROJECTS

Bomb Lab

Defused a 'bomb' by implementing and optimizing code in C and Assembly language. Explored computer architecture principles and gained insights into system-level optimization techniques.

Auction House

Led a team of 3 to develop auction management system, allowing clients to participate in auctions through a server-based platform. Handled creation, listing, bidding, and closure process ensuring smooth operations from both sides.

Expense Manager

Created a web-based application to manage expenses allowing users to add expenses in group of people and share the cost between the group, with functionality of receipt scanning to autofill item list, cost, and people to share with.
